

CONDEMNED

with unique features for grunge type

Condemned comes with a complete alternate set of Capitals, Lowercase, and Numerals that are accessible by three methods:

By simply typing without any changed settings, you are using the original character set.

By turning on the Stylistic Alternates feature, you are using the secondary character set.

ÀáBbCcDdEeFfGg0123456789

By turning on the Contextual Alternates feature, the letter set is constantly interchanging between BOTH character sets for a more random appearance.
